

Trumpf TruBend 3100 (B26)

Year 04 / 2021

Machine hours: 1.500 h

Press force: 100 to

Bending length: 3.060 mm

Standard equipment

- Closed machine frame
- Ram
- Spherical ram suspension, with ram tilt
- Electro hydraulic downstroke drive
- Bloc hydraulic
- Y-axis measuring system
- Hydraulic oil in the machine (life time filling)
- Oil cooler

Backgauge system

- Gauge finger (2 pieces)

Crowning system

- Self-regulating combined crowning

Control

- Machine control T3500T multi touch
- Integrated Trumpf technology data

Operating

- Operating unit with foot switch

Data transfer

- USB interface
- RJ-45 network interface
- Network connection
- Interface Remote Support

Safety

- Standard safety devices
- CE-marking

Advanced standard equipment

- Manual TRUMPF upper tool clamping
- 2 axis backgauge system (X- and R-axis)
- Manual TRUMPF lower tool clamping
- BendGuard

Optional equipment

Backgauge system

- 5 axis backgauge system (X-,Delta X-, R-, Z1- and Z2-axis)

Tooling system

- QuickClamp Trumpf upper tooling clamping

Operating

- Work area lighting front and back

Material handling

- 2 x front support bracket
